

Articles	P Saikkonen Asymptotically Efficient Estimation of Cointegration Regressions	1
	R Keener J Kmenta N Weber Estimation of the Covariance Matrix of the Least-Squares Regression Coefficients When the Disturbance Covariance Matrix is of Unknown	22
	A Weiss Estimating Nonlinear Dynamic Models Using Least Absolute Error Estimation	46
	F Peracchi Robust M-Tests	69
ET Interviews	H Pesaran Professor Sir Richard Stone	85
Book Reviews	M El-Gamal "Topics in Advanced Econometrics: Probability Foundations" by Phoebus J. Dhrymes	125
	P Trivedi "Econometric Analysis" by William H. Greene	132
Problems	L Magee Global Power of White's Test for Heteroskedasticity	139
	H Neudecker A Satorra A Matrix Invariance Problem	139
Solutions	R Farebrother A Simple Bayesian Estimation Problem with Laplace Disturbances and Absolute-Error Loss Function	140
	S Sapra Estimation of Type 3 Tobit Models via the EM Algorithm	142
	H Neudecker A Satorra A Property of the Duplication Matrix	144
	R Farebrother Comparison of t-Ratios	145
	A Bhat N Singh Parameter Estimates Which Minimize the Sum of Functions of the Differences Between the Residuals	146
