

Articles	G Jiang J Knight A Nonparametric Approach to the Estimation of Diffusion Processes, with an Application to a Short-Term Interest Rate Model	615
	V Corradi Comovements between Diffusion Processes: Characterization, Estimation, and Testing	646
	J Wooldridge Multiplicative Panel Data Models without the Strict Exogeneity Assumption	667
	Y-W Cheung K Lai Bandwidth Selection, Prewhitening, and the Power of the Phillips-Perron Test	679
	J Jeganathan On Asymptotic Inference in Linear Cointegrated Time Series Systems	692
Book Reviews	M Boozer "Econometric Analysis of Panel Data" by Badi H. Baltagi	747
Problems	B Baltagi Hausman's Specification Test as a Gauss-Newton Regression	757
	R Heijmans Asymptotic Properties for the Least-Squares Estimator of the Variance in a Linear Model	757
	R Farebrother Multivariate Regression Subject to Orthogonality Conditions	758
Solutions	D Ryan D Young Instrument Selection for Consistent IV Estimators	758
	A Montanes Reasonable Spurious Regressions	760
	S Puntanen G Styan Orthogonal Projectors	764
	G Dhaene Ordered-Reversed Stochastic Processes May be Nonstochastic	765
	F Goerlich The Symmetry of a Moore-Penrose Inverse	766
